Skype
muthuspeaks

Address
Coimbatore, Tamilnadu, India.

GitHub:
https://github.com/muthuesign/

Skills

Framework
.Net, .Net Core

Programming
ASP.Net MVC, Web API, C#, LINQ, Microservices

Backend
Microsoft SQL Server
XML, JSON

Scripting
Angular, typescript, ReactJs, charts, jQuery, Javascript

Designing
Html, css, bootstrap

Integrations
Authorize.net, paypal or any other
Facebook, Twitter, Linkedin, Map

Unit testing
MS Unit test, xunit, jasmine, karma

Build
Powershell,
MS Build,
Cake Build

Softwares

Platform
Windows

Tools
Microsoft Visual Studio 2017
Microsoft Visual Studio Code

Source control
Team Foundation Services
Git, SVN, Jira

Deployment
IIS, NodeJs, Octopus, Teamcity

Known Languages

English, Tamil

Summary

As a developer, having experience in all stages of the SDLC(agile) involving & studying of the user requirements, analyzing, designing, implementation, testing, deployment, documentation and maintaining of various intranet and web-based projects. Extensive experience in problem solving with good skills. Effective manner, driven to provide excellent customer service, and able to assess complex situations and formulate solutions.

Professional Experience

Dell R&D Centre, Bangalore   Present
Senior Software Engineer

- ✓ Translated business requirements into systems qualities and repeatable design strategies and patterns, such as scalability, reusability. Involved in designing of databases and data modeling / design techniques.
- ✓ Analyze the design requirements and divide the specifications as stories & tasks.
- ✓ Developed, enhanced, and maintained reference architectures for various capabilities.
- ✓ Performed design reviews across the application to assure continuous improvement.
